

2007-2008 Studentship Awards

Monday, 30 July 2007

Argon Technology in co-operation with Western Australia's Department of Industry & Resources is offering two studentships for the coming 2007 - 2008 summer break.

Argon R&D

Looking for a bright start to your career? Want to conduct some leading edge research into advancing robotic system technologies? Argon's DoIR Studentship Awards will offer you the ability to kick your career off to a flying start.

The studentship awards will see two bright young engineers/scientists undertake research with Argon developing and advancing technology levels in the field of Robotics & Automation.
